

# Climate Plan Analysis – Global Leadership

## Legislative Agenda

Candidate	Donald Trump	Joe Biden	Bernie Sanders	Elizabeth Warren	Pete Buttigieg	Michael Bloomberg	Andrew Yang	Amy Klobuchar	Tom Steyer	Candidate
<b>Ratify the Kigali Amendment to the Montreal Protocol</b>	Not submitting the Kigali Amendment to the Senate for ratification, despite overwhelming support from American manufacturers who are innovating safer refrigerants.	"Biden will, in his first 100 days... Embrace the Kigali Amendment to the Montreal Protocol, adding momentum to curbing hydrofluorocarbons"	N/A	N/A	"Submitting to the Senate for ratification the Kigali Amendment to the Montreal Protocol."	"Submit the Kigali Amendment to the Senate for ratification;"	N/A	"She will also recommit to controls on other greenhouse gasses through agreements like the Kigali Amendment."	"Submitting the Kigali Amendment to the Senate for ratification and investing in safer alternative refrigerants that are developed domestically."	<b>Ratify the Kigali Amendment to the Montreal Protocol</b>
<b>Enhance Green Climate Fund Pledge</b>	Reneged on \$2 billion of America's \$3 billion initial commitment to the Green Climate Fund, and failed to contribute further funding when nearly all US allies are doubling their initial pledges.	"Biden will recommit the United States to the Green Climate Fund, fulfilling America's pledge and enhancing our security by helping developing countries better manage the adverse effects of climate change, including conflict, migration, and state fragility."	"In order to help countries of the Global South with climate adaptation efforts, the U.S. will invest \$200 billion in the Green Climate Fund for the equitable transfer of renewable technologies, climate adaptation, and assistance in adopting sustainable energies."	N/A	"Restore U.S. contributions to the Green Climate Fund, such that the developed countries meet and exceed their goal to contribute \$100 billion a year to developing countries, and ensuring that this funding effectively gets these countries to access affordable clean energy and strengthen their resilience to natural disasters."	"Restore U.S. contributions to the Green Climate Fund, such that the developed countries meet and exceed their goal to contribute \$100 billion a year to developing countries, and ensuring that this funding effectively gets these countries to access affordable clean energy and strengthen their resilience to natural disasters."	N/A	"She will increase U.S. support for the Green Climate Fund."	"Paying in arrears the \$2 billion pledged by President Obama to the Green Climate Fund, and pledging at least \$1 billion per year to this fund to help recipients build resilience to climate impacts, avoid future carbon lock-in, and develop sustainably." "Committing to renewed, ongoing investment of \$20 billion per year for ten years to the Green Climate Fund and the Global Green New Deal Fund, a new US-led global climate finance vessel to catalyze new private capital into green technologies and projects, particularly in rapidly developing nations."	<b>Enhance Green Climate Fund Pledge</b>
<b>Promote Exports of Clean Technologies</b>	Promoted US fossil fuels as a "clean" way for developing countries to meet their energy needs.	"Biden will establish [the Clean Energy Export and Climate Investment Initiative,] a new government-wide effort to promote American clean energy exports and investments around the world to advance climate mitigation, adaptation, and resilience. The initiative will offer incentives for U.S. firms that supply low-carbon solutions to the international market in order to spur U.S. industry, jobs, and competitiveness, and make America the world leader in clean energy technologies."	N/A	"Her Green Marshall Plan will provide American-made clean energy technology to countries that need it most. She'll commit \$100 billion over ten years to offer discounts to countries hardest hit by the climate crisis, or as an incentive for regulatory changes that further reduce emissions."	"We will launch the Global Investment Initiative to build US developed technologies in developing nations around the world. This \$250 billion fund will match with \$250 billion in private investment over ten years to partner on clean energy and resilient infrastructure projects that use American technology and are built by American companies"	N/A	N/A	"As President, Senator Klobuchar will increase support for businesses looking to export green products and technologies through a new initiative across U.S. export promotion agencies."	"Expanding access to clean energy and clean transportation in the Least Developed Nations through technology transfer, technical assistance, and aid."	<b>Promote Exports of Clean Technologies</b>
